For paper, board and tissue market position and estimated market size calculated as average during 2018-2020. For pulp, energy and automation the market position and estimated market size calculated based on 2020 figures. For services, the market position calculated from 2020 and estimated market size once the market recovers from the temporary negative impact of COVID-19 on customer operations and services demand.

- Investment highlights**
- Strong position in the growing market of converting renewables
- Widest technology and services offering combined with automation excellence
- Services: The widest offering and strong geographical presence
- Automation: Maximizing efficiency and safety of our customers
- Paper: World-class technology for packaging and hygiene needs
- Pulp and Energy: Strong business with high market share and flexible cost structure
- Systematically building the future

- Financial targets**
- Net sales for stable business to grow over two times the market growth
- Net sales for capital business to exceed market growth
- Comparable EBITA: 10-12%
- Comparable return on capital employed (pre-tax), ROCE: >20%
- Dividend payout at least 50% of net profit
