

June 23, 2026

## The primary method of sending invoices to Valmet is e-invoicing.

The correct Valmet legal entity name and company identification number must be specified in all invoices to Valmet as shown in the left-hand column of the address list.

Only invoices with relevant attachments should be sent to the invoicing addresses, any other documents or materials will be ignored. An invoice should be sent to Valmet only once, via one invoice channel.

### Please note: Valmet reference is extremely important information in all circumstances

- Invoices with Valmet purchase order: Include Valmet purchase order number in the 'Order number' field of the invoice
- Invoices without Valmet purchase order: Include Valmet reference person in email format in the 'Your reference' field of the invoice

If the Valmet entity you are invoicing is not included in the list, please consult your Valmet procurement contact for further instructions.
