Stonel™ VC&C products

PRODUCT ADVISORY BULLETIN PAB #10602 – GENERAL RELEASE

Stonel™ Axiom™ AN PFAS updates

Due to upcoming legislation on PFAS restrictions, we removed the Teflon™ wrapped plug from the conduit entry for the Axiom AN with NPT housings (AN enclosures “C”, “D”, “V” and “A”). Both conduit entries now have dust cap covers as below that began shipping after mid-November 2025. Stonel explored alternative solutions for the entries, but these were cost prohibitive and would impact price.

As outlined in the IMO, devices are shipped with the conduit covers to protect the internal components during shipping, but it is the responsibility of the installer to provide the appropriate permanent sealing for devices. Please refer to the [Axiom IMO](#) for more details.

If you have questions on these product updates or need help with selection or ordering, please contact me or Kevin Hufnagle.

Best Regards,

Bruce Domino, P.E.
