Stonel™ VC&amp;C products

## PRODUCT UPDATE BULLETIN PUB #10358

### Stonel™ Axiom™: New ANATEL certification for Brazil

We are excited to announce that the Stonel Axiom AN35W and AN98W products are now approved by ANATEL (Brazil's National Telecommunications Agency) for Bluetooth® operation to support Wireless Link. The AN35W (conventional) and AN98W (ASi-5) models both support Wireless Link capabilities to ease set-up and safely monitor the Axiom AN35W device.

Some of the key features of Wireless Link:

- Easy device deployment via Bluetooth
- Easily set the device tag, and open and closed
- “Wink” the device to easily locate in process
- Safely monitor the device from a distance
- Monitor device diagnostics
  - Monitor device cycle counts for maintenance
  - Monitor closed or open Stroke position
  - Monitor stroke times for closed/open

To order, use model AN35W for conventional wiring or AN98W for ASi-5 networks, both with Wireless Link support. The Wireless Link App is available for iOS devices and upcoming with Android devices in Q2 2025. More information regarding the Axiom and Wireless Link can be found on our [website](#); including the IMO, certification and technical bulletin.

If you have any questions, please do not hesitate to contact me, or Kevin Hufnagle.
