

**Fast and reliable
delivery from
Flow Control
Eurohub**

Ordering made easy

The Flow Control Eurohub is a centralized warehouse and logistics concept catering to the needs of our European channel partners.

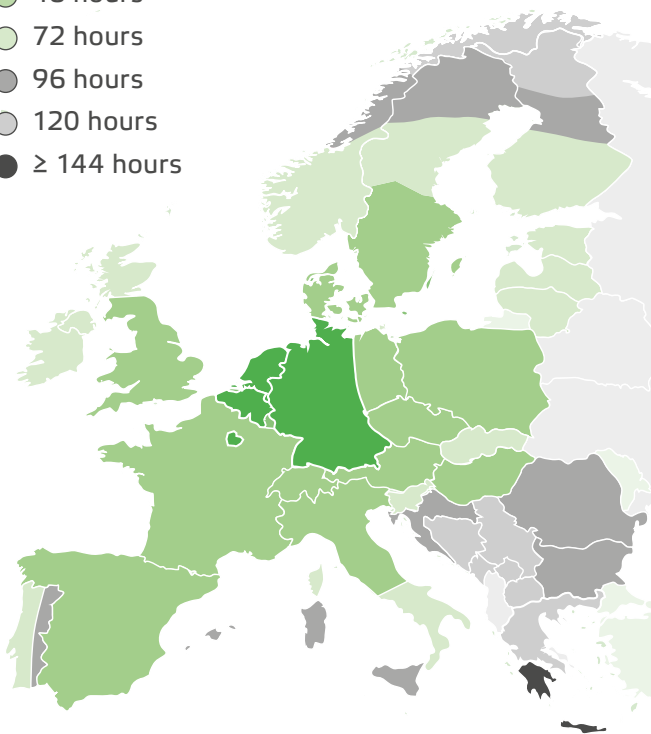

We stock and ship standard flow control products and parts from a conveniently located hub that ensures fast road transportation to our partners all across the continent.

Fast and reliable deliveries for channel partners in Europe

Availability is key. With Eurohub, fast and reliable deliveries are now an added benefit of your innovative Valmet flow control products. Your stock is only a few hours away from being in your warehouse.

Approximate road transit times:

- 24 hours
- 48 hours
- 72 hours
- 96 hours
- 120 hours
- ≥ 144 hours

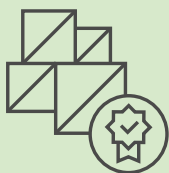

Smart solutions for business performance

The Eurohub is a concept that makes life easier, simpler and more economical for our channel partners offering our valve products in Europe. Delivery times range from same day delivery to a maximum of 1.5 weeks to the further reaches of Southern Europe, Eastern Europe or Russia.

Here is everything you need to remember:

Standard products

Eurohub stocks large quantities of standard Valmet products and parts. You can order a range of our simpler off-the-shelf products that require no advanced engineering or customization.

Fast and reliable delivery

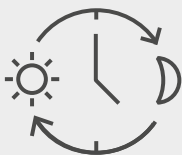

Eurohub is centrally located and highly efficient. Your shipment will be dispatched within 24 hours of placing your order. Typical delivery times are less than a week.

r better nce

Ensured availability

Eurohub holds large quantities of stock and keeps up inventory on a continuous basis, ensuring that you always have access to the products and parts you need without long shipping times.

Stock cost reductions

Eurohub shares your responsibility for stocking standard products. Our stock will add a high number of items to your offering. The savings come from not having to stock a large variety of products.

Valmet's professionals around the world work close to our customers and are committed to moving our customers' performance forward – every day.
